Education

University of Louisville

BS in Organizational
Leadership and Learning

Expected Graduation 2018

Employment History

Director of Curriculum (Sept '16 - Present) @ [TEKY](#) – Paintsville, KY

TEKY is a code school with a mission to train underserved communities to create a modern workforce in eastern Kentucky. Students go from having no knowledge of mobile development to becoming remote employed software engineers at Interapt, a tech company in Louisville. I am responsible for the development and delivery of the 16 week curriculum.

iOS Co-Lead Instructor (Summer '16) @ [Make School](#) – Sunnyvale, CA

Assisted in leading an eight week full-time program for high school and college students. Guided students as they took their ideas from the whiteboard to the App Store.

Android and iOS Developer (Dec '14 - Sept '16) @ [Interapt](#) – Louisville, KY

Architected and developed Android and iOS applications to client specifications. Mobile applications I created have been downloaded and used by over 20,000 users. This includes the official Speed Art Museum Android app released at the re-opening.

Organizations

Code Louisville, Volunteer Mentor in Web, iOS, and Android ('15 - '16)

Code Louisville offers 12-week software development tracks to adults who want to pursue a career in the software industry at no cost to the student.

Skills

- Experienced Android (Java) and iOS (Swift) developer.
- Proficient in web development with Ruby on Rails
- Familiar with Objective-C, Python, C, C++, and C#
- Leadership in educational organizations
- Entrepreneurship

Projects

SnapHunt (April 2016 – Present)

SnapHunt is a discovery platform to help Snapchatters find new content and creators. We launched at the UofL College of Business Startup weekend and within 4 weeks had 11,000 users registered and using SnapHunt. Currently, we are developing mobile apps.

Yeti Agenda (2013 – 2014)

Startup Next Program. I built a platform for students, teachers, and parents to access classroom information without difficulty. Self-taught iOS, web development. Gained experience conducting market research, customer discovery, customer research, sales, marketing, and team building.
