Employment

Director of Curriculum (Sept '16 - Present) @ [Interapt](#) – Louisville, KY

Interapt Skills trains up veterans and underserved populations into technical jobs. I lead the design, development, and execution of the Interapt Skills program. My team has developed and taught iOS, Android, MERN stack, and Spring/SQL curricula.

Freelance Senior Mobile Engineer (2015 - Present) – Louisville, KY

- Android Developer, Inscope Medical (inscopemedical.com)
- iOS Developer, MailHaven (mailhaven.co)
- iOS Developer, Stacks Mobile (stacksmobile.io)
- Lead Mobile Engineer, Moolathon (MVP Stage)

iOS Co-Lead Instructor (Summer '16) @ [Make School](#) – Sunnyvale, CA

Mobile App Developer (Dec '14 - Sept '16) @ [Interapt](#) – Louisville, KY

Skills

- Experienced Android (Java) and iOS (Swift) developer.
- Proficient in Ruby on Rails, PostgreSQL
- Familiar with Objective-C, Python, Kotlin, MERN, React Native
- Technical curriculum development, design, and instruction
- Leadership and management in technical environments.

Volunteering

Code Louisville, Volunteer Mentor ('15 - Present)

Code Louisville offers a free 12-week software development mentorship to adults in the Louisville area. I have been a mentor for Front-End, Android, iOS, and JavaScript.

Projects

SnapHunt (April '16 – August '17)

SnapHunt is a discovery platform to help Snapchat users find new content and creators. Within 4 weeks of launch we had 10,000 users using SnapHunt. I built a team of developers, lead marketing, negotiated partnerships, and lead the development of an iOS app, web app (RoR/Bootstrap), and back end (using Heroku/PostgreSQL/RoR).

Yeti Agenda (October '13 – June '15)

I built a platform for students, teachers, and parents to access classroom information without difficulty. Self-taught iOS and web development. Gained experience conducting market research, customer discovery, customer research, sales, marketing, and team building.
